##### Internship Trainee

Maret 2023 - April 2023 (2 bulan)

In this internship I served as Product Manager and developed an app prototype called StudyHive with a duration of 3 weeks

StudyHive itself is an application that focuses on job training for people with physical disabilities/disabilities and underprivileged children with a collective

registration system, where one person becomes a Facilitator and acts as a person who accommodates participants who wish to register. in courses.

My job is :

- Create wireframes
- Brainstorm app ideas
- Create a development timeline
- Communicating between programmer division and UI/UX Designer
